INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Mobile Meals of Southern Arizona, Inc.
Tucson, Arizona

We have audited the accompanying financial statements of Mobile Meals of Southern Arizona, Inc. (a nonprofit organization), which comprise the statement of financial position as of September 30, 2018 and 2017, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Mobile Meals of Southern Arizona, Inc. as of September 30, 2018 and 2017, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

MOBILE MEALS OF SOUTHERN ARIZONA, INC.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2018 AND 2017

1. Organization

Nature of operations

Mobile Meals of Southern Arizona, Inc. (Mobile Meals), which changed its name from Mobile Meals of Tucson, Inc. on May 25, 2017, is an Arizona nonprofit charitable corporation, which provides home-delivered meals to seniors and adults with disabilities in Pima County. Mobile Meals provides services primarily with volunteers. Funding is principally from grants, donations, and client fees. Mobile Meals' major program is as follows:

Meal delivery - This is a volunteer-based program that preserves the health, dignity and independence of homebound adults by delivering medically-tailored meals five days a week. Clients are eligible if they are homebound, live within Mobile Meals' service area, and are unable to cook or shop for themselves. Clients receive two meals a day, a lunch and a dinner, Monday through Friday. Meals are prepared by ten different local healthcare facilities.

2. Summary of significant accounting policies

Financial statement presentation

Mobile Meals is required under generally accepted accounting principles to report information regarding its financial position and activities according to three classes of net assets: unrestricted, temporarily restricted and permanently restricted.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

Cash and cash equivalents

Cash and cash equivalents includes all cash balances and highly liquid investments with an original maturity of three months or less. Mobile Meals had no uninsured cash at September 30, 2018.

Investments

Investments are valued at fair market value. Donated investments are recorded at fair market value at the date of gift.

Accounts and grants receivable

Accounts and grants receivable are stated at the amount that Mobile Meals expects to collect from meal recipients and grantors on outstanding balances. Management believes that all such receivables are fully collectible and, accordingly, has recorded no valuation allowance.

2. Summary of significant accounting policies - continued

Furniture and equipment

Purchased furniture and equipment are carried at cost. Donated furniture and equipment are carried at the approximate fair value at the date of donation. Mobile Meals capitalizes purchases in excess of \$500 with a useful life of more than one year. Depreciation is computed using the straight-line method over the estimated useful life of the asset.

Accrued leave

Accrued leave is reported as a liability when earned by the employees since the employees receive vested rights to this employee benefit.

Restricted and unrestricted revenue and support

Support that is restricted by the donor is reported as an increase in unrestricted net assets if the restriction expires in the reporting period in which the support is recognized. All other donor-restricted support is reported as an increase in temporarily or permanently restricted net assets, depending on the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statements of activities as net assets released from restriction.

Endowments

Mobile Meals' endowments consist of two individual funds established under either donor restriction or as designated by the Board of Directors to ensure support for future operations. As required by generally accepted accounting principles, net assets associated with endowment funds (including funds designated by the Board of Directors to function as endowments) are classified and reported based on the existence or absence of donor-imposed restrictions.

The State of Arizona adopted the Prudent Management of Institutional Funds Act (PMIFA) (the Act). The Board of Directors of Mobile Meals has interpreted the Act as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, Mobile Meals classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund.

The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the organization in a manner consistent with the standard of prudence prescribed by the Act. In accordance with the Act, Mobile Meals considers the following factors in making a determination to appropriate or accumulate endowment funds:

Functional expense allocation

The costs of providing various programs and other activities have been summarized on a functional basis in the statements of activities and in the statements of functional expenses. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Donated materials and services

Donated materials are recorded at estimated fair market value when received. Donated services are recognized in the financial statements at their fair market value if the following criteria are met:

- The services require specialized skills and the services are provided by individuals possessing those skills.
- The services would typically need to be purchased if not donated.

No amounts have been reflected in the statements for donated services provided by volunteers, although a substantial number of volunteers have donated significant amounts of their time in program services, because the aforementioned criteria has not been met.

Income tax status

Mobile Meals is exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code. However, income from certain activities not directly related to Mobile Meals' tax-exempt purpose may be subject to taxation as unrelated business income. In addition, Mobile Meals qualifies for the charitable contribution deduction under Section 170(b)(1)(A)(vi) and has been classified as an organization other than a private foundation under Section 509(a)(1). Mobile Meals is also exempt from Arizona income tax under Arizona revised statute section 43-1201. Mobile Meals' returns are subject to examination by federal and state taxing authorities, generally for three years and four years, respectively, from the date the returns are filed.

Mobile Meals has applied the provisions of the FASB's ASC 740-10, Accounting for Uncertainty in Income Taxes. Under ASC 740-10, nonpublic enterprises, including nonprofit organizations, are required to record a tax liability when substantial uncertainties exist as to whether certain income is exempt from federal, state and local income tax. As of September 30, 2018 and 2017, Mobile Meals had no substantial uncertain income tax positions.

Advertising expense

Advertising costs are expensed as incurred.

3. Fair value measurements and investments

Fair value measurements are determined based on the assumptions, referred to as inputs that market participants would use in pricing the asset. The fair value hierarchy distinguishes between market participant assumptions and Mobile Meals' own assumptions about market participant assumptions. Observable inputs are assumptions based on market data obtained from independent sources; while unobservable inputs are Mobile Meals' own assumptions about what market participants would assume based on the best information available in the circumstances.

Level 1 inputs. A quoted price in an active market for an identical asset or liability is considered to be the most reliable evidence of fair value. The fair value of Mobile Meals' investments in marketable securities are determined by reference to quoted prices in active markets for identical assets and other relevant information generated by market transactions.

Level 2 inputs. These are observable inputs, either directly or indirectly, other than quoted prices included within Level 1. Mobile Meals does not utilize Level 2 inputs.

Level 3 inputs. These inputs are unobservable and are used to measure fair value only when observable inputs are not available. Mobile Meals does not utilize Level 3 inputs.

Fair values of assets measured on a recurring basis at September 30, 2018 and 2017 consisted of the following:

	Level 1	
	2018	2017
Mutual funds	\$ 1,504,238	\$ 1,323,100
Less amounts restricted for long-term purpose	(50,546)	(50,546)

	\$ 62,745	\$ 12,390	\$ 4,635	\$ (19,200)	\$ 60,570

6. Permanently restricted net assets

Permanently restricted net assets total \$50,546 at both September 30, 2018 and 2017. In the absence of donor restrictions regarding earnings on these permanently restricted contributions, earnings are temporarily restricted by PMIFA until appropriated by the Board of Directors.

7. Endowments

Funds with deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or the Act requires Mobile Meals to retain as a fund of perpetual direction. In accordance with generally accepted accounting principles, there were no deficiencies of this nature reported in unrestricted net assets as of September 30, 2018 or 2017.

Return objectives and risk parameters

Mobile Meals has adopted investment policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the organization must hold in perpetuity or for a donor-specified period(s) as well as board-designated funds. Under this policy, as approved by the Board of Directors, the endowment assets are invested in a manner that is intended to achieve total return consistent with the perpetual nature of endowment fund assets, with the objective to provide current income and long-term financial support to carry out the functions of Mobile Meals in all phases of operations as the need arises.

Mobile Meals expects its endowment funds, over time, to provide an average rate of return of approximately 6% to 10% annually. The portfolio results, including risk and return, will be measured against the Capital Markets Index (CMI) which is a board proxy for the performance measures of domestic fixed income and equity markets, and as a performance benchmark for balanced portfolios. The return objective is based on historical returns of 5.5% for bonds (fixed income) and 11% for stocks. Actual returns in any given year may vary from this amount.

Investment strategies

To satisfy its current income and long-term rate-of-return objectives, Mobile Meals relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). Mobile Meals targets a diversified asset allocation that places an emphasis on balanced portfolio of 50% bonds and 50% stocks with a 10% leeway in each direction for investments to achieve its long-term return objectives within prudent risk constraints.

Spending policy

Mobile Meals has a formally adopted spending policy, which reads as follows: The Finance Committee may annually distribute an amount between 5% and 7% of the fund's total average value including interest from the endowment portion. The distributions may be made semi-annually to the money market account in an amount between 2.5% and 3.5% of the calculated distribution value following approval from the Finance Committee. The distribution value is the average of the fair market value of the investments as of the close of each of the 12 months preceding the month of distributions.

The investments' market value shall be based upon all assets in the fund including principal and retained income, adjusted for all gains and losses, whether realized or unrealized, and determined as of the last business day of the month. Any additional distribution from the investment funds requires approval by the Board of Directors.
